SENIOR students from Woodcrest College got their hands dirty when they participated in The Green Up Clean Up tree planting event this week.

Staff and students collected rubbish and planted native trees to help the environment and give back to the community.

Woodcrest College event co-ordinator Nandani Prakash said the senior campus chose to conduct a Green Up Clean Up to teach students about the bigger picture.

“We wanted to teach students about the consequences of their actions,” Ms Prakash said.

“About 30 students from the horticulture class were involved and it gave them great exposure to different species of trees and shrubs.”

Ms Prakash said she geared the students towards a learning environment centred on the local environment for their community.

The Green Up Clean Up program is run throughout the year by The Fundraising Group.

Project manager Chloe Brearley said the program was

about empowering students to make a positive impact on climate change

“It is great to see this school do positive fundraiser for their community, they should be

commended,” she said.

“You can hold a Green Up Clean Up at your school at anytime.”
