

# Basin kids prepare to plant

The Basin Pre-School students have been happy getting their hands dirty as they prepare for Sunday's Green Up Clean Up event and fair.

The students have been busy gathering seeds that they hope to plant.

The Green Up Clean Up event will be held this Sunday at the Basin Pre-School, Paradise Beach Road, Sanctuary Point.

The program lets students do their bit for the environment and allows them to raise extra funds to put back into their surrounding environment or to spend on educational projects such as water tanks, vegetable gardens or

native tree planting.

The event will be held in a fete like atmosphere.

The Green Up Clean Up organiser Nicole Thompson, from the pre-school, said she was proud of the way the children and their families were getting behind the environmentally-minded fundraiser.

Ms Thompson said they hope the community supports the event.

The students will be looking for sponsorships, which will go towards the establishment of environmental awareness programs.

Getting their hands dirty as they prepare for Sunday's Green Up Clean Up event were Bianca Coleman, Oliver Winner, Harrison Tan and Leonard Cox.
